Foreword

In the past, many annuals have had for a theme incidents from the past or in the future, but we want to emphasize a very important subject in the present—Teenagers, and to be more specific the Top Teens in the World—those from Butte High.

This is a record of these Top Teens as they cut it last year. As you read, imagine that it is on a turntable and "Let's Listen."

Acknowledgment

To the S. K. Smith Company, the Ashton Engraving Company, McKee Printing Company, the photographers, the advertisers, and all the people who have helped us cut this record, we extend a hearty thanks.

To Mr. Robert Taylor, our advisor, we wish to show our appreciation for his patience, effort, and continual guidance during the cutting of the 1956 Bulldog.

"Because of You"

Dedication

To you, Miss McQuaig and Mrs. Donahue, we dedicate this, our 1956 Bulldog, for your unmatched patience and service to our class. You have been the guiding notes in all of our class activities, and in our four wonderful years of high school life. For this outstanding record, the Senior Class says "Thanks."

"MEMORIES"

As we look back over the road on which we have traveled for four wonderful and happy years, there are many outstanding experiences which will always stand out as top hits on our record.

We started traveling on this road as lonely and confused Freshmen, but under the leadership of our Freshman President, Mike Freebourn, and with the aid and guidance of our advisors, Mrs. Donohue and Miss Margaret O'Leary, we succeeded in climbing the hill to the road traveled by the Sophomores.

We were much more sure of ourselves as Sophomores and with the aid of the same leaders who helped us as Freshmen, we traveled rapidly toward our destination. One of the highlights of this road was the Sophomore Swirl—our first activity as a class. This dance was very successful and marked a milestone in our travel.

When we reached the road traveled on by Juniors, we were to have many outstanding experiences. As our leaders, we were fortunate to have John Templin as President and Mrs. Donohue and Miss McQuaig as advisors.

Lynn Evenskaas was crowned Sno-Ball Queen at the lovely Junior Sno-Ball Dance.

Our Junior Assembly was praised by all who saw it as one of the very best put on.

Another honor bestowed on one of our classmates was the naming of Janet Reed as Sweetheart of DeMolay.

The final activity taking place on this road was the beautiful Junior Prom. The theme of this dance was "The Loveliest Night of the Year" and it truly was for all who attended.

Soon we entered on the last road to our destination. We had only a short distance left to travel, but that distance, led and directed by our successful Junior President and advisors, held many wonderful adventures.

The first one was the Senior Formal, held in the Masonic Ballroom. We don't believe there have been many nicer dances than this one.

Our Senior Assembly was just as well presented and was praised equally as high as the Junior Assembly.

At the Coronation Ball, Sally Harris and Sonny Holland were crowned Senior Queen and King. This was a fitting tribute to two swell classmates and a wonderful climax to their four years on the high-school road.

Now we have come to the end of that road and stand before the City of Graduation. There are many roads leading from this beautiful city to new adventures, new cities, and different people. After coming together in the City of Graduation, we will each be taking one of these new roads. The Class of '56 will never ever be together again as it will be on May 31, 1956, but no matter where we are or what we are doing, we have four years of wonderful "Memories" to keep us together in spirit.

MRS. JEAN SCHIESSER

"MUSIC! MUSIC! MUSIC!"

Without good composers, directors, and producers, even hit tunes and music compositions are failures.

Mr. and Mrs. Henry J. Schiesser and their assistant, Ray Sims make our music a hit throughout the country. Under their direction, the band, twirlers, and orchestra held their annual concert, performed at the games, and last summer performed in Calgary, Canada.

The students of Butte High School are very fortunate to have Mr. and Mrs. Schiesser directing our high school band.

MR. RAY SIMS

"AIN'T SHE SWEET!"

"Ain't She Sweet" describes Karen Schiesser as she marches down the street. Karen, who adds a sparkling note to the Butte High Band, has been in every concert since she was six years old. She has been head majorette for three years and has fascinated thousands of people with her trick twirling.

After performing a solo number in this year's concert, Karen was presented a plaque inscribed "To Karen Schiesser from the Butte High School Band and Band Parents in appreciation of her outstanding talent." This alone proves the feelings of the people towards Karen and her outstanding talent and showmanship both in the concerts and performing at the games in the past years.

They play at Pep Assemblies and basketball games bringing out the old school spirit in every student and the feeling of victory when they strike up "On, Butte High School."

CONCERT

The young musicians, directed by H. J. Schiesser, turned in professional-like performances in a varied program ranging from sublime works of the old masters to snappy popular numbers by contemporary composers.

Among the numbers played by the orchestra were "Semiramide Overture," "La Folia," and also two numbers arranged by Karen Schiesser,"Nutcracker Suite" and "Park Avenue Fantasy."

Some of the outstanding numbers played by the band are "Marche Slave," "Purple Carnival," "Jericho," "Fandango" and the "Universal Judgment."

"Rhythm in Revue," with choregraphy and costuming by Mrs. Schiesser, was a brilliant, fast-moving stage show featuring novel props, beautiful settings and costumes.

The Schiessers, with manager and assistant director, Ray Sims, scored another triumph in this year's concert.

EARTH SATELLITE
This 19" plexiglas EARTH SATELLITE is a model of the proposed satellite to be launched by the UNITED STATES sometime during 1957 or 1958. It will gather information concerning cosmic rays, temperature, and other pertinent information which will be radioed back to earth for analysis. Information gathered will be made available to other countries and will be our country's contribution to the International Geophysical Year Project.
Upon receiving a radio signal of a set frequency, the receiver will actuate the receiver relay which will in turn energize the various circuits. The individual components will then feed data into the electronic selector and the information will be radioed to earth.

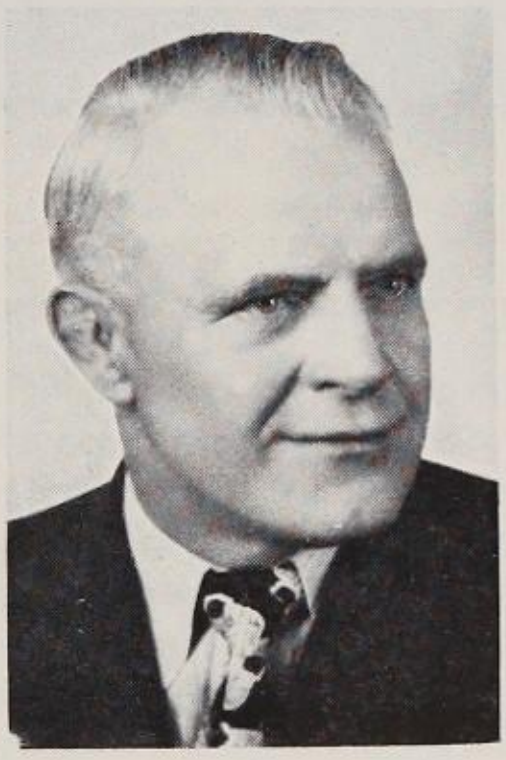
Bob Rae, in his second year as Varsity basketball coach, has proven many clever techniques on the hardwood. His friendly ways made him many friends among the students and faculty of Butte High School. This year he brought the last place Bulldogs up to fourth place in the State Basketball tournament. Besides coaching the varsity, he also coaches the Frosh Football Team.

HARRY "SWEDE" DAHLBERG



The students of Butte High School are proud of their Harry Dahlberg. A successful era of Butte Bulldog Gridiron Activities was ended last fall when he asked to be relieved of his football coaching duties.

Under the "Swede" the Purples played for the state football title eighteen times in which they won eight times, tied for it twice and lost eight.

In honor of "Swede" the citizenry of Butte and admiring friends the state over held a "Harry Dahlberg Day" on April 28.

The aim of G. A. C. is to promote good sportsmanship at all times.

These girls assist Miss McPhail in her gym and pool classes.

Here's a typical scene in the gym—the girls' tumbling class.

A new activity for the G. A. C. this year is water polo.

Quick thinking and skill are required for volleyball.

Among the many activities of G. A. C. is bowling, a sport enjoyed by many.

Interest is high and competition is keen when it comes to basketball.

These girls manage the various sports and activities of G. A. C.

Captains of the volleyball teams are important and these girls did an excellent job.

Keeping G. A. C. activities running smoothly is one of the jobs of the officers.

The Teacher Was Not Far Behind

As the prospectors moved north from gold discoveries at Virginia City and Bannack, building mining camps in gulches and canyons, the "professors" were not far behind.

Education, following the trailblazers, moved into the Butte mining district, in 1865 into Silver Bow County the next year into Butte.

The pioneers trudged from the Virginia City district where schools had been started in 1863 at Bannack and in 1864 at Virginia City.

Unlike the schools in the other early-day mining camps, the first Butte school featured a course in dancing. That came about because the first regular teacher, Colonel Woods, was not only a competent educator but a cultivated musician. He took pride in teaching the young how to dance as well as to read and write.

Woods, however, did not teach the first classes in Butte. He was late in getting to the mining camp to fill the assignment and Thomas C. Porter, drawn earlier to Butte by gold, filled in for him. Porter had taught the previous year at Silver Bow. He was experienced, having taught school in Illinois before coming west.

The first school in Butte, under Woods and taught during the winter of 1866-67, had a short term. However the next year education did get a foothold in a school opened by William Haynes.

As the prospector settled down, the professor stayed.

Plenty of Electricity Means More Jobs

A few years ago, the word "job" probably meant something unpleasant to you—a household task like chopping wood, doing dishes, cleaning house or mowing the lawn. Today, though, the word has a different . . . more exciting . . . ring to you. It means employment. All of you want jobs . . . and pay.

Electricity is a factor in determining where a business or industry will locate. The community with a plentiful supply of power has a better chance of being designated a site for a new business or plant. We have a department that aids in developing the state by actively promoting Montana as a good place to live and work. We have plenty of power. Our rates are considerably lower than the national average.

We're planning and building today to assure adequate power in the future for you and yours.
